

WE WAIVE, YOU SAVE!

SIGN UP FOR RELAYHEALTH eSCRIPT AND SAVE UP TO \$300*

Medicare will begin paying incentives for electronic prescribing in 2009, but why wait to reap the benefits? Start using RelayHealth eScript today and RelayHealth will waive the set-up fee.

On July 15, 2008, the House and Senate passed an important Medicare bill that among other things provides financial incentives to accelerate the use of electronic prescribing by physicians. RelayHealth's eScript is a fast and easy way to start using electronic prescribing for new prescriptions as well as time-consuming refills.

- 110,000 total electronic prescription transactions per month
- 40,000 eScripts sent electronically per month
- 30,000 renewals from pharmacies per month
- 40,000 eScripts sent by fax per month

What's more, if you enroll in any other RelayHealth Consumer solution during the promotion period, RelayHealth will waive any additional consumer set-up fees. As a result, you could save up to \$300 per provider by enrolling in RelayHealth Consumer and EDI solutions by December 31, 2008.

It Pays to Get Connected

If you are considering RelayHealth eScript, you may qualify for a rebate in addition to having the eScript set-up fee waived.

Now through Oct. 31, 2008, McKesson is offering a rebate worth up to \$1,000 off Medisoft when purchased in conjunction with RelayHealth connectivity services.

Go to www.mymedisoftrebate.com for complete details.

*Set-up fee per provider. Must also enroll in RelayHealth EDI to qualify. Offer ends 12/31/08.
