

Minimum System Requirements for Medisoft Version 15

(Faster systems are recommended for better performance)

➤ **Workstations:** A Pentium 4 computer with a with a **2.6 GHz** or greater processor, **1 GB** (or more) of **RAM**, 20 GB or more of available hard drive space, CD-ROM, a mouse or compatible pointing device, 16-bit or higher color display.

Operating systems: (*Only 32-bit Version of Windows will work, 64-bit Version of Windows will not work*)

Windows XP Professional (with Windows XP Service pack 2 or higher)

Windows 2000 (with recent Microsoft updates) or Windows Vista – Business class operating system only.

For sending Electronic Claims: A dial-up modem might be required - with an Analog phone line.

Claims using a dial-up modem cannot be sent over a DSL, Cable Modem or digital phone line.

We recommend an external US Robotics Modem (not USB).

Or if internal, make sure it is a Data-Fax modem. Win Modems are not supported.

*Note: some Electronic Claim programs now use Hi-Speed Internet, such as DSL or Cable;
Please contact us to discuss your individual needs.*

➤ **Medisoft - Network Professional** (For 2 or more computers networked together)

Server: A Pentium 4 computer with a **2.6 GHz** or greater processor, **2 GB** (or more) of **RAM**, 30 GB or more of available hard drive space, a mouse or compatible pointing device, CD-ROM, 16-bit or higher color display.

Operating systems: Windows 2000 Server or Windows 2003 Server

(*Only 32-bit Version of Windows will work, 64-bit Version of Windows will not work*)

For small Peer-to-Peer networks you can use:

Windows XP Professional (with Windows XP Service pack 2 or higher) or

Windows 2000 (with recent Microsoft updates) or Windows Vista – Business class operating system only

Note: Windows Vista – Business class operating system only, was added to Version 14

Recommendations: Do daily backups to an external backup device, such as Iomega Zip Disks.

Network Hardware needed for Medisoft Network Professional:

- Fast Ethernet (also known as 100mbps or 100BaseTx) or faster.
- 100 base network components (network switches and network cards) or faster.
- Category 5e (or better) network cable.
- Wireless Networks & Wireless Keyboards are not recommended.

The Following operating systems **are not supported** for the Medisoft Program:

- Microsoft Windows XP Home or XP Media
- Microsoft Windows 7, Windows Vista Home or Home Premium
- Microsoft Windows 95, 98, NT or ME
- Only 32-bit Version of Windows will work, 64-bit Version of Windows will not work
- Novell NetWare, Apple or MAC computers.
